

DeskTalker[®]

Wireless Intercom System

There are two common ways for administrative personnel to communicate with outside personnel equipped with 2-way radios. One way is to use a wired extension to remotely access a common fixed radio or base station. This is expensive, both to purchase and to maintain.

The second alternative is to use a portable radio sitting in a desk charger which is guaranteed to burn up batteries and add to maintenance cost. Additionally, the user either has to pick up the radio or microphone to talk.

The better alternative is the *DeskTalker*. Measuring only 1.4" H x 3.8" W by 5.6" L, the *DeskTalker* requires less room than a desk calculator! In many applications, no external antenna is required or even a microphone since it uses a press to talk bar on the top of the unit. Just plug it into an AC outlet and you are ready to talk!

DeskTalker costs only a little more than a good portable radio but in the long run it will cost less since there are no batteries to replace and, unlike a portable, the *DeskTalker* does not suddenly vanish when someone needs a radio!

DeskTalker can be used in conjunction with most VHF or UHF analog radios and is ideal for keeping in touch with others, activating an emergency notification system, answering remote call boxes or monitoring the weather (VHF model only). You're going to wonder how you ever got along without *DeskTalker*!

Ideal For A Variety of Needs...

- Hospitals • Municipalities • Plants • Schools

Specifications

Frequency Bands - VHF, UHF, or MURS
 Channel capacity - Up to 10
 Program options - Alert tone, Page, Scan
 Tone options - CTCSS, DCS, 2-Tone, DTMF
 Transmitter power output - 2000 mW
 Audio power output - 1000 mW
 Dimensions - 1.4"H x 3.8" W x 5.6"L
 Weather Alert - VHF only

Quick Pricing Guide

DT-101V - VHF model with flex antenna	\$349
DT-101U - UHF model with flex antenna	\$349
DT-101M - MURS model with flex antenna	\$349
DT-101A - External antenna (RAM-1545)	\$58
DT-101C - 12 volt power cord for mobile use	\$16
DT-101B - Vehicle mounting bracket	\$9
DT-101S - Speaker-microphone	\$19
DT-101E - External speaker for mobile use	\$36
