US/CANADA COMCARE™ PRICE LIST

February 1, 2014

ComCare™ Service

ComCare Service Programs provide additional customer support and product services for Sonetics equipment beyond the original manufacturer's warranty coverage. ComCare Service Programs are limited to eligible products purchased by businesses and other organizations in the USA and Canada (including governmental entities) and are not available to individual consumers.

Overview and options

ComCare pricing varies according to length of coverage, speed of service and support, and product group. Return shipping time to customer is valid for USA only. ComCare Service is available only to the original product owner and is not transferable. ComCare must be purchased with the product or within 90 days of product purchase. The full statement of ComCare Service coverage is printed on the Certificate of Coverage shipped with each covered product. Standard terms are available on our Web site. Coverage is available for 3 or 5 years, and runs concurrently with the standard warranty period. Both the standard warranty and ComCare coverage start on the original date of purchase.

ComCare Benefits:

- 2-day (or faster) repair time;
- 2-day (USA only) return shipping to customer;
- Same- or next-day technical support during technical support hours; and
- 25% discount on non-warranty repair or service.
