

HelpAlert[®]

Emergency Call System

Gives No Time For Crime!

Help at the push of a button!

The *HelpAlert* wireless emergency call system is available for use with the *No Time For Crime Program* offered jointly by Falcon Community Services and participating law enforcement agencies

Three models are available. The standard model HA101V shown at the left with internal antenna is for use with VHF analog public safety radio systems. The HA101U is for UHF systems. Both offer 120 mW transmit power. The higher powered 2000 mW models provide longer operating range. Optional external antennas for maximum range are available for all models.

Six (6) internal AA batteries provide up to one year of operating life. A low battery message is broadcast when batteries require replacement, either on the primary radio frequency, or a secondary frequency if desired.

Benefits:

- Provides instant notification to law enforcement
- Reduces response time from an average of 10 minutes to less than 2 minutes
- No installation required.
- Simple to install by user, can easily be relocated as required
- No monthly charges or long-term contracts. Price includes custom programming and delivery.

Quick Pricing Guide

- HA101V, VHF 120 mW power - \$349
- HA101U, UHF 120 mW power - \$349
- HA102U, VHF 2000 mW power - \$549
- HA102U, UHF 2000 mW power - \$549
- HA130A1 – External top mount antenna, VHF or UHF - \$25
- HA130A2 – External antenna w/ 17' foot cable and base mount 2X VHF power gain, (4X UHF) - \$50

Ideal For A Variety of Community Needs... • **Courtrooms** • **Banks** • **Churches** • **Schools**
• **Retail Stores** • **Small offices** • **Industrial Plants**

HelpAlert is a part of the *No Time For Crime Program* offered by Falcon Community Services and participating Law Enforcement Agencies.

MODELS	UHF		VHF		VHF	
	RQA-451	RQA-452	RQA-151	RQA-152	RQA-151M-152M MURS License-Free	
FCC Rule Parts:	90		90		95J	
Frequency Range:	450 to 470 MHz Narrow Band		150 – 165 MHz Narrow Band		151 – 155 MHz MURS frequencies only	
RF Power Output:	120 mW	2000 mW	120 mW	2000 mW	120 mW	2000 mW
ALL MODELS						
Coded Signaling:	Encode CTCSS, DCS, DTMF, 3-7 tone SelCall					
Typical Range/Coverage:	One-half mile, line-of-sight to a portable 2-way radio, or approximately 75,000 sq. ft. Greater range is possible when a radio repeater is used.					
Battery Life:	1 year when using AA Lithium-Ion, non-rechargeable batteries or approximately 7,000 transmissions. Internal					
Battery:	6AA Lithium-Ion, non-rechargeable batteries.					
Antenna:	Internal, tamper-proof, ¼ wave					
Housing:	Gasketed, water-resistant, polycarbonate with UV stabilizer for outdoor use.					
Dimensions:	7.57" x 5.07" x 2.1" (19.23cm x 12.88cm x 5.33cm)					
Weight:	1 pound, without batteries					
Switch Input:	Front-panel, momentary push button					
Voice Message "Assistance Needed"	Customizable, 12 seconds max, if Reset Message also used.					
Voice Message "Reset"	Optional, Customizable, 12 seconds max					
Voice Message "Low Battery Alert"	Customizable - 2 seconds					
Voice Message "External Power Fail"	Customizable - 2 seconds					
Programming Method:	User Programmable with PC Programmer and USB to 5 Pin Mini USB Cable					
Programmable Features:	<ul style="list-style-type: none"> - TX audio companding (allows compatibility with certain 2-way radios) <li style="padding-left: 20px;">- Repeat Transmission Schedules - Voice message recording via on-board microphone or pre-recorded .wav file - Front panel TX indicator LED - Can be programmed for use with radio repeaters
