

# Speaker-Microphones & Headsets for Hytera Radios

## Speaker-Microphones for analog portable radios

**N2W Model SM6W** - This is our most popular speaker-microphone many HYT/Hytera portables such as the BD302/502, PD412, PD502/552, TC-508/516, TC-600/610, TC-700, and other radios with a 2-pin connector. The SM6W is lightweight, rugged and affordable. The SM6W is IP67 rated for maximum dust and water protection and is covered by a three year factory warranty. Priced at only **\$64**, it is well suited for industrial users. See [info4u.us/SM6W.pdf](http://info4u.us/SM6W.pdf) for more info.

## Noise cancelling Speaker-Microphones for digital portables

**Stone Mountain Phoenix** – Dual microphones are often necessary to reduce background noise for digital portable radios which use a Vocoder to convert speech to a digital format. Good noise cancellation is VERY important as well as providing maximum receive audio. The Phoenix is a little larger than the SM6W, but a recommended choice for BD502, PD412, portables. The price is just **\$98**.for2-pin connector radios. See [info4u.us/Phoenix.pdf](http://info4u.us/Phoenix.pdf) for more information. Add \$20 for use with PD6 series and PD982 radios.

## Wireless Speaker-Microphone for analog and digital portables

**BluSkye-RSM** – This is our new WIRELESS speaker-microphone which is out of the box Bluetooth compatible with the X1E and X1P portables as well as the PD6 and PD7 series equipped with the optional ABN02 adapter. This is the ULTIMATE high performance microphone, prices at just \$199. The Bluetooth adapter for the PD6/7 series radios is \$99. More info at [info4u.us/BluSkye-RSM.pdf](http://info4u.us/BluSkye-RSM.pdf).

## Wireless Speaker-Microphones for Hytera mobile radios

**MD-RSM** – Just plug in the ADA-01 Bluetooth adapter (**\$99**) into the microphone jack of any Hytera MD6/7 series mobile radio, add the SM27W1 Bluetooth Controller/Microphone (**\$299**) and you have full control of your mobile radio in the palm of your hand, in or around the vehicle! Ideal for fire trucks, industrial forklifts, and utility trucks. More information available at [info4u.us/MD652-RSM.pdf](http://info4u.us/MD652-RSM.pdf).

## OSHA Compliant Dual Muff Headsets with Situational Awareness

Choose your style!

Headset - Behind the Neck - Helmet

**HearCLEAR™** headsets protect your hearing AND allow you to hear your 2-way radio loud and clear with no special interfaces or even a cable to your radio! Like magic, these lightweight and affordable (**\$349**) hearing protection headsets meet OSHA and NFPA regulations while allowing you to hear co-workers near you, your 2-way radio, and things nearby that could hurt you (like the driver of an out of control vehicle blowing their horn to warn you to get out of the way!). You can use the *HearCLEAR* headset in combination with any of the microphones listed above. If you wish, you can optionally add a noise cancelling lip microphone and a cable for direct connection for most popular 2-way radios. See [info4u.us/HearClear.pdf](http://info4u.us/HearClear.pdf) for more info.
