

We can help you hear and be heard better!

PD982i hands free radios have the best audio in the industry with noise canceling microphones and an extra powerful 2.5-watt speaker. Still, there are situations where an external audio device can be useful. Here are some of our top-quality offerings.

Speaker-Microphone
IP66 Rated
\$95

Bluetooth Earset
Top quality
\$85

Our Best Earset
NFPA compliant
\$185

Single ear Earset
Affordably priced
\$49

Dual Muff Headset
Great choice
\$255

The MD782i-FM also has full duplex simultaneous talk and listen capability. For many applications, the standard microphone may be all that is required. An optional Blue Tooth (BT) wireless microphone as shown at the lower right is available for use with the MD782i-FM for \$175, or the \$85 personal BT Earset (See above) can be used for hands free operation. Other special options are available on request. For more info, call 205.854.2611.
