

**What can we do for
people like you?**

**YOU MAY BE
SURPRISED!**

Just scroll down for more information

Falcon
Wireless Direct

A Division of A2Z Communications, Inc.

For example,

Consider our CS100 Pager-Radio! It's about the same size as a Minitor VI, has more audio, has a better IP rating, talks on up to 16 channels and costs just \$149!

And it has the same alert tone as Minitor pagers! For a sample of how it sounds, go to:

info4u.us/PageAlert.wma

For more information, visit us at:

info4u.us/CS-Pager-Radios.pdf

Speaking of pagers, and alerting, and things like that,

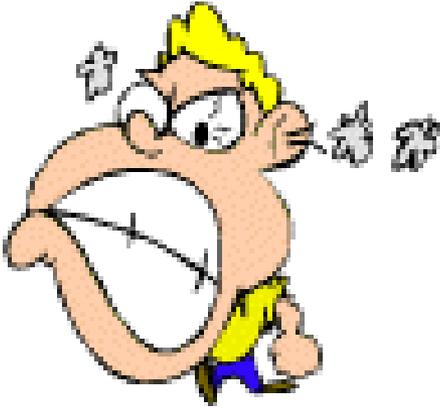

Did you know that we have all the top pager brands including Apollo, Motorola, Unication and US Alert? Speaking of US Alert, if you want the best VHF or UHF pager at the best price, US Alert is the name to know! Choose the standard non-display or the full featured model with display shown on the left. Learn more at info4u.us/WatchDog.pdf.

Need an efficient and affordable station house monitor?

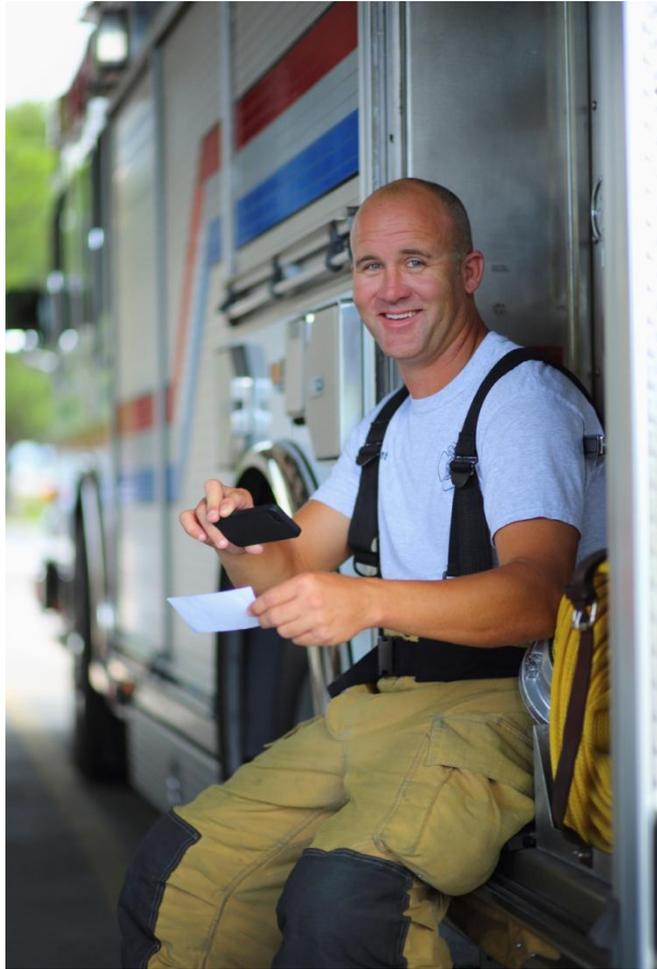

Get the real deal with the 2TR9 Fixed Alert Monitor! It's loud! It's sensitive, and you can easily hook it up to your station PA system or an outside antenna for extra range. Covers low band, VHF or UHF frequency range and it's compatible with GE, Motorola, and Plectron tones.

Additional information is available at FalconDirect.com/2TR9

**Pagers and Radios don't
work as far as they did
before narrow banding?**

WE CAN FIX THAT!

Not getting your pager calls like you did before narrow banding?

HERE'S ONE SOLUTION!

Get a *VoiceTXTR-FD!*

A single *VoiceTXTR-FD* can extend your voice pages to firefighter cell phones, within 10 SECONDS!

Every member of every department can be served and there is no monthly cost or phone dial delays!

More information available at info4u.us/VoiceTXTR-FD.pdf

Inexpensively extend pager coverage
with our exclusive

BlueBox-XTN

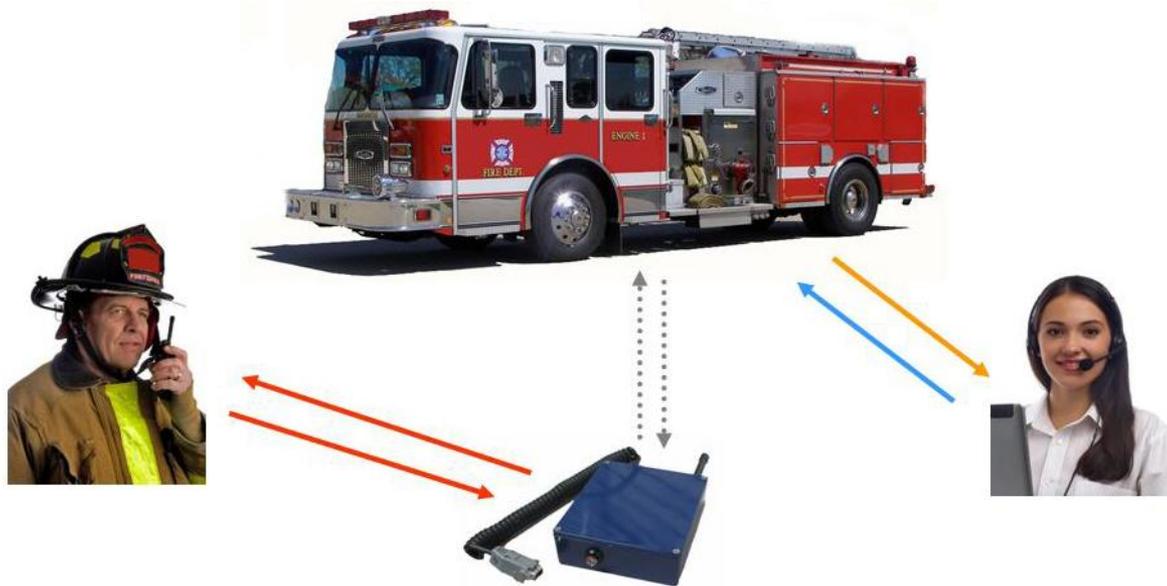

Did narrow banding reduce your paging range in fringe areas? Need a low cost effective solution? Add a *BlueBox-XTN* to your local fire station radio!

The price is right – just \$949 plus the cost of an antenna system. We can extend coverage in a single area or multiple areas, as needed. Want to know more? Check out the information at

<http://info4u.us/BlueBox-XTN.pdf>

More info at youtube.com/watch?v=nIJ_6ffYdV0

Portables don't talk as far as mobiles? If that's a problem, just connect the BlueBox-PTX to your existing VHF, UHF or 700/800 MHz mobile radio. Then your portable, even low cost models, can communicate as far as your mobile! The cost? Just \$949 and it's plug and play compatible with most mobile radios. No wiring or drilling required! For more information, check out info4u.us/BlueBox-PTX.pdf

So, what do you do when a VHF radio user wants to talk to a UHF radio user? The answer is simple! You just plug in a BlueBox-CNX to the VHF mobile radio! Now, ambulance, police, and wrecker services operating on VHF can talk to fire departments operating on UHF. No new radios required. The total investment is just \$949 for the BlueBox plus the cost of adding a control frequency in selected portable radios (\$38 for the first portable radio and \$8 each for additional radios of the same type).

Four Really Bad Things Can Happen If A Public Safety Dispatch Call Is Not Promptly Received!

- There can be increased risk of injury or loss of life!
- There can be increased potential for property damage!
- Insurance premiums may increase!
- There can be increased possibility of litigation!

We've got great solutions to help you be SURE your first responders get the message

PROMPTLY!

- **Controller III**TM
- **InstaLertR**TM
- **SmrtSite**TM

It all started in Perry County Alabama!

911 Director Viola Abraham, now retired had a \$250,000 need and a \$50,000 budget to get efficient dispatch operations to serve Perry County first responders. “They” all said it couldn’t be done, but they didn’t know how tenacious Ms. Abraham could be or how she was able find a vendor that would develop new technology to meet her special needs. Ms. Abraham DID meet her objectives, within budget, and Falcon Wireless was the vendor who helped make it all possible.

One of the products designed and produced for Perry E911 was the Controller III Dispatch console shown above. It was built, delivered and has operation without failure for over five years at unbelievably low cost. For more information, check out Info4u.us/Controller-III.pdf. Price for a basic controller for two radios start at just \$1549.

Scott knows about **InstaLertR™** ...

the incredible system that can monitor multiple VHF or UHF repeater sites and instantly let dispatch know if there is a problem at any site. The price is just \$1,549! Learn more about *InstaLertR™* and how it helped Scott at

info4u.us/InstaLertR

SmrtSite™

Radio Reporting System

Can tell you when,

- There is a power failure at a remote repeater site - \$469
- When power fails and is restored - \$569
- When power fails, is restored, and/or there is unauthorized entry on the site - \$669
- Works with most VHF or UHF radio systems

Additional information at info4u.us/SmrtSite.pdf

How do visitors talk to you when you're not there?

New wireless call boxes allow you to answer visitor calls directly from your 2-way radio, even when you are not on the premises. Your choice of VHF or UHF models. Both priced under \$600. No wiring or AC power required! Call us at 205.854.2611 for more information.

Wireless Station PA System

Put one of these in the bay, one in the sleeping quarters, and another in the day room.

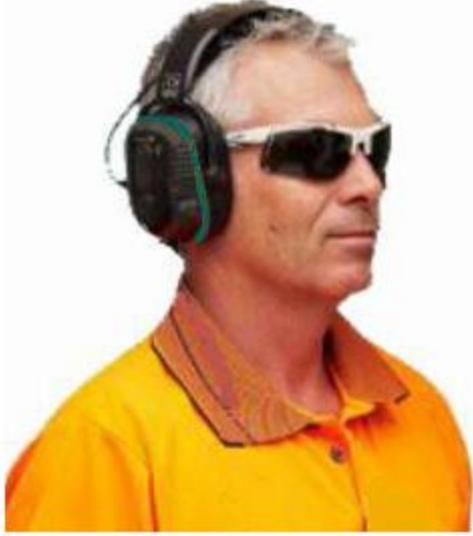

When a page call is sent to your station, you'll hear it loud and clear. Easy installation. No wiring required. Just plug it into AC power and you'll get the call everytime!

For more information, see falcondirect.com/Loudmouth

Is your fire station protected from people like this? If not, maybe you need to know more about ***EverGard!***

For more information see info4u.us/EverGard-FD.pdf

Should your fire truck have a mobile radio and headset system installed? We don't think so!

Cost of radio - \$500 to \$2,500 each plus \$500 installation, headset interface (\$500 to \$1,000) and headsets at \$300 to \$700 each. Total average cost to equip four firefighters, \$8,000. We've got a better solution for a WHOLE lot less money! Want to know how we do it? Check out info4u.us/HearCLEAR.pdf You are in for a VERY pleasant surprise!

**You've never
seen a mobile
radio quite
like this!**

Our new MD-652-RSM comes with a wireless speaker-microphone with full radio controls. Can be used by driver, passenger, or pump operator. There is nothing else like it, anywhere! Check out info4u.us/MD652-RSM.pdf for more information.

We are all about PERSONAL communications! We've got the best portable radios at the best prices, with the lowest cost of ownership in the USA!

You can learn more about our top choice fireground portable radios at info4u.us/FOP-Radios.pdf for volunteer firefighter pager radios. All of our portables have both analog and digital capability) For more information on P25 radios, check out Info4u.us/P25-Comparisons.pdf. Full P25 catalog pricing at info4u.us/P25-BK-Radio.pdf.

Do you need a repeater? We've got the best choices at the best prices anywhere. You can learn more about our repeaters by visiting: info4u.us/Top-Choice-Repeaters.pdf

But, that's not the BIG news! The BIG news is if you are associated with a municipality, we may be able to upgrade you to digital and help you get a new repeater at unbelievably low cost, maybe even FREE!

For additional information, just give us a call at 800.489.2611 or drop us an email to ServingU@The-Communicators.net. You will REALLY be glad you did!

DeskTalker[®]

Wireless Intercom System

Portable radios are great out in the field, but for in the station, the better solution is the *DeskTalker*! You don't have to pick up anything. There are no batteries to replace, and the *DeskTalker* is not prone to be "borrowed". For more information, see info4u.us/DeskTalker.pdf.

In closing...

We wish to thank you for your interest in our products and services. If you have any questions, or if we can be of additional service, please call me personally at 205.854.2611.

Burch Falkner, *At your service!*
