

LoudMouth[®]

Emergency Mass Notification Call System

Gets the word out!

Meets 29 CFR 1910.165(b) standards

The LoudMouth wireless mass notification system is ideal for quickly alerting large numbers of people in times of emergency. LoudMouth is especially well suited for use in manufacturing plants subject to compliance with OSHA safety standards for mass alerting.

LoudMouth provides three methods of alerting - a flashing strobe light, an audible alert tone, and a voice message. The system uses a wireless VHF or UHF receiver, coupled to an internal message recorder and playback unit through a high powered audio amplifier and directional horn speaker for maximum audio in noisy areas.

No wiring is required. No FCC license is required, although the system can be used in conjunction with existing licensed VHF or UHF radios systems.

LoudMouth units simply plug in to available AC outlets. Activation is by one or more associated portable 2-way radios. The LPA201 shown at the top left is for connection to existing wired PA systems to allow control by personal 2-way radios. The LM301 (top center) includes a high output speaker to provide notification in remote areas not covered by wired PA systems. The LM302 at the left provides both audible and visual alerting capability.

A second speaker can be added to the LM301 or LM302 to provide enhanced coverage (typically on the order of 1000 square feet per speaker or about 50 feet in an oval pattern).

Features and Benefits:

- Meets 29 CFR 1910 165(b) standards
- Works with existing PA systems or as a stand alone system
- Simple to install by user, can easily be relocated as required
- No monthly charges or long-term contracts.
- Up to 9 Zones plus NOAA weather alerts
- See <http://falcondirect.com/Loudmouth> for more information

Quick Pricing Guide

- LPA201, For use with existing PA systems - \$549
- LM301, LoudMouth with single speaker - \$649
- LM302, LoudMouth with strobe light - \$749
- LM-SSO, Adds second speaker to LM301 - \$49
- JMX 150/450 Personal 2-way radio - \$249
- JBS150/450 - Fixed office receiver (at left) - \$349 (V and M models can also receive weather alerts)
- LM-PGM programming kit for LoudMouth, Portable, and Fixed station radios - \$349

Ideal for a variety of needs...

• Industrial Plants • Parks • Golf Courses
