

# It's Trade-in Time at Falcon Wireless!

## Time for YOU to save some money!

One of our large national account customers came in the other day with a request to "fix up" a box of local radios that looked like they had been in combat. They were good analog radios comparable to a Motorola CP200, but just plain "Beat Up". The flat rate labor charge and replacement battery alone came to \$159! That very same day, Hytera came out with a new trade-in program with huge allowances, for all brands of model radios portables, plus a 2 year upgrade to the regular 3 year warranty. Sometimes, trading is better than fixing!

### Administrative Radios

**Hytera Model PD362** – Ultra compact UHF analog/DMR digital radio with both voice and limited text messaging capability. If you have some older radios to trade (any brand or model), your cost is only **\$185 with an extended 5 year warranty!** This is a LIMITED TIME OFFER! Trade-in radios must include antenna, battery, and charger. Clips would be nice but we can make a few exceptions. Additional information is available at [info4u.us/PD362.pdf](http://info4u.us/PD362.pdf). Regular MSRP price is \$308 without trade or \$256 with instant rebate to qualified buyers.

### Church, Customer Service, Hospital & Small School Radios

**Hytera Model BD302** – Our most affordable dual mode (Analog/DMR Digital) UHF radio. More info is available at [info4u.us/BD302.pdf](http://info4u.us/BD302.pdf). With an MSRP of \$201 and a 3 year factory warranty, the BD302 is an outstanding value. Our instant rebate brings the cost down to just \$189. But, when you trade in your old radios, you pay a **net difference of just \$121** plus shipping and taxes if applicable, AND you get two additional years of factory warranty (5 years total)!

### Golf Course, Light industry, Big School & Security Radios

**Hytera Model BD502** – Consistently rated as a best value, the BD502 performs right along with the best radios, regardless of brand or price. Additional information is available at [info4u.us/BD502.pdf](http://info4u.us/BD502.pdf). With an MSRP of \$290 and a 3 year factory warranty, the BD502 is an outstanding value. Our instant rebate brings the cost down to just \$249. But, when you trade in your old radios, you pay a **net difference of just \$174 each including a 5 year warranty!**

### Outside Rugged Duty School Coach and Public Safety Radios

**Hytera Model PD6 Series** – Take your choice of the non-display PD602 model (far left) with a **net trade in price of just \$293** or the PD662 with display (at the right) for full administrative control for just \$381, both with a five year warranty. Or if you want to just add a few radios, your no-trade price after instant rebate is just \$369 for the non-display Model PD602 or only \$449 for the LCD model PD662 with a three year factory warranty. See [info4u.us/PD6-Series.pdf](http://info4u.us/PD6-Series.pdf) for more product information. Better yet, call us for a demonstration!
