

It's Trade-in Time at Falcon Wireless!

Time for YOU to save some money!

One of our large national account customers came in the other day with a request to "fix up" a box of local radios that looked like they had been in combat. They were good analog radios comparable to a Motorola CP200, but just plain "Beat Up". The flat rate labor charge and replacement battery alone came to \$159! That very same day, Hytera came out with a new trade-in program with huge allowances, for all brands and model analog portables, plus a 2 year upgrade to the regular 3 year warranty if you are trading in digital radios. This is a GOOD deal!

Light industry, Big School, Recreational, & Security Radios

Hytera Model BD502 – Consistently rated as a best value, the BD502 performs right along with the best radios, regardless of brand or price. Additional information is available at info4u.us/BD502.pdf. With an MSRP of \$290 and a 3 year factory warranty, the BD502 is an outstanding value. Our instant rebate brings the cost down to just \$249. But, when you trade in your old radios, you pay a **net difference of just \$174 each!**

Maintenance and Security Patrol Radios

Hytera Model PD412 Series – Our exclusive security patrol radio with built in a RFID reader. More information is available at info4u.us/PatrolLINX.pdf. With an MSRP of \$398 and a 3 year factory warranty, the PD412 is an outstanding value. Our instant rebate brings the cost down to just \$319. But, when you trade in your old analog radio, you pay a **net difference of just \$239** plus shipping and taxes if applicable, AND you get a full three year factory warranty. Get a 5 year warranty for trading in your digital radios!

Heavy duty radios for fire departments and public safety

Hytera Model PD5 Series – Take your choice of the non-display PD502 model (far left) with a **net trade in price of just \$217** or the PD562 with display (at the far left) for full administrative control for just \$264, both with a three year warranty. Or if you want to just add a few radios, your no-trade price after instant rebate is just \$299 for the non-display Model PD502 or only \$342 for the LCD model. See info4u.us/PD5-Series.pdf for more product information. This offer subject to termination without notice.

Golf course maintenance and heavy industrial use radios

Hytera Model PD6 Series – Take your choice of the non-display PD602 model (middle) with a **net trade in price of just \$293** or the PD662 with display (far right) for \$382, or the full DTMF keyboard model (far right) for \$395 for golf course pump or other radio remote control uses. These radios are designed for the toughest use with an IP67 rating. No trade prices with instant rebate are \$369, \$449, and \$468. See info4u.us/PD6-Series.pdf for more product info.
