

# TOP CHOICE CHURCH AND SCHOOL RADIOS

We have chosen four of our most popular radio models for your consideration. The PD362 and the PD562 are both analog and DMR digital capable, manufactured by Hytera, the second largest communications manufacturer in the world. Additional information is available at [Hytera-Alabama.us](http://Hytera-Alabama.us). The TC-508 and TC580 analog modes are manufactured by the HYT division of Hytera with the same quality and performance you would expect from Hytera at a lower price point. On the subject of price, we guarantee the lowest cost of ownership for Hytera and HYT radios. For additional information, see [info4u.us/OwnershipCost.pdf](http://info4u.us/OwnershipCost.pdf).

Note 1 – Instant rebate is a current promotion and subject to change without notice.

Note 2 – Flat Rate repair cost does not cover damage caused by abuse, antenna, battery, case, or clips.

Note 3 – Charging system adds a 6 unit outlet strip and 12 hour timer to “exercise” and protect batteries

Note 4 - When used with a companion Hytera repeater, the PD362 or PD562 can split a standard narrow band channel into two individual sub-channels and automatically select the first available sub-channel without manual channel selection by the user. This is an exclusive feature with Hytera. Note: A non-display model of the PD-562 is available for \$50 less than the PD562. This is the model PD502. priced at \$390 before \$91 instant rebate and trade-in if applicable.
